The Beauty of CSS Design
A demonstration of what can be accomplished visually through CSS-based design. Select any style sheet from the list to load it into this page.
Download the sample html file and css file
The Road to Enlightenment
Littering a dark and dreary road lay the past relics of browser-specific tags, incompatible DOMs, and broken CSS support.
Today, we must clear the mind of past practices. Web enlightenment has been achieved thanks to the tireless efforts of folk like the W3C, WaSP and the major browser creators.
The css Zen Garden invites you to relax and meditate on the important lessons of the masters. Begin to see with clarity. Learn to use the (yet to be) time-honored techniques in new and invigorating fashion. Become one with the web.
So What is This About?
There is clearly a need for CSS to be taken seriously by graphic artists. The Zen Garden aims to excite, inspire, and encourage participation. To begin, view some of the existing designs in the list. Clicking on any one will load the style sheet into this very page. The code remains the same, the only thing that has changed is the external .css file. Yes, really.
CSS allows complete and total control over the style of a hypertext document. The only way this can be illustrated in a way that gets people excited is by demonstrating what it can truly be, once the reins are placed in the hands

Nun ja...

Auf keinen Fall sollte man sich von Webmastern erpressen lassen, die den Zugriff auf ihre Webseiten nur mit eingeschaltetem Javascript erlauben wollen. So etwas ist reine Schikane, es gibt keine technischen Gründe, warum Webseiten nur mit Javascript abrufbar sein sollten. Webmaster, die sogar den Abruf des gesetzlich vorgeschriebenen Impressums nur bei eingeschaltetem Javascript ermöglichen, begehen eine Ordnungswidrigkeit. Gemäß §6 TDG muß das Impressum für jedem, der die Webseite aufruft, unmittelbar (also ohne umständliches Einschalten von Javascript oder Download eines anderen Browsers) abrufbar sein. Verstöße dagegen sind eine Ordnungswidrigkeit und können mit bis zu 50.000,- € geahndet werden.

*** Auf vertrackte Weise trifft sich derzeit Brattain, der "größte Sohn von Seattle", mit einem anderen Einwohner dieser Stadt, der nunmehr diesen Titel hat. In dem schier endlosen Gezerre um die "I Mag Net-Bahn" Metrorapid im Büssow-Land leisteten sich die mit der Wirtschaftlichkeitsanalyse betrauten Gutachter das Vergnügen, die Machbarkeitsstudie im MS-Word-Format ins Netz zu stellen. So waren alle Änderungen letzter Hand gut dokumentiert und tauchten am Mittwoch in den Gazetten auf: In wenigen Minuten wuchs die Zahl von 320 Plätzen auf 536 Plätze pro Zug, weil ein Gutachter die Quadratmeter etwas fortschrittlicher nach der "japanischen Methode" berechnete. Insgesamt ein schlagender Beweis für die Notwendigkeit von Microsoft-Software in der Verwaltung, worüber sich die Sozialdemokraten ärgern: Wenn die Politiker schweigen, sprechen dieRevisionsstände.
